BEVERLY, MASSACHUSETTS

"Birthplace of the American Navy"

Early American history is abundant in Beverly, Massachusetts, but few cities blend so well the old and the new. The Beverly of today was included in the territory called "Naumkeag", settled in 1626 by Roger Conant and his followers who sailed into Beverly harbor aboard the "Abigail," and set aside as a township in 1668. It was incorporated as a city in 1894. The early settlers handed down to its present generation a worthy heritage of tradition and history, along with a wealth of natural beauty and assets.

In 1968 Beverly celebrated its 300th Anniversary as a town, having been incorporated as a separate township in 1668. The Historic Trail, Yankee Homecoming, Summer Music Theater, and a Lobster Festival each year are tourist attractions.

Situated only 18 miles north of Boston, Beverly is the heart of the North Shore. It has the convenience of the city, the serenity of the country and the charm of a New England seafaring town. Excellent transportation and modern highways, with a backdrop of nature's loveliest scenery, make it popular for living, business, industry, and recreation.

Covering 15 square miles of area, it has nine miles of coastline, including smooth white sandy beaches, rocky ledges interspersed with seaside estates or neat, well kept homes. Back from the shore are wooded country lanes, with gentle rolling terrain and attractive homes. Approaching by land or by sea, the tall white spires of the churches can be seen nestled among the abundant foliage of the early planters ground.

American pioneers Roger Conant, John Balch and other "planters" built their homes here. One of the homes, the Balch House, built in 1636, is the oldest wooden frame house in the country, and still stands as a record of early days and an attraction for visitors.

The city has many "firsts" of which to be proud. Here the first cotton mill in America was established in 1788, the first Britannia ware was manufactured in 1808, and the first Sunday School in New England was started (1810).

The first ship of the American Navy, the schooner "Hannah", was outfitted, armed, equipped and provisioned at Beverly. Commissioned by General George Washington, it sailed from here on its first cruise on September 5, 1775, and two days later brought in a prize. This important incident in history, recorded in original documents at the Library of Congress, made Beverly the Birthplace of the American Navy. Many other ships were also commissioned at this important port of revolutionary days, and at one time as many prizes were brought back to Beverly, it was necessary to construct new docks. Sixty vessels were in the harbor at one time. . . aided greatly the continental forces through clothing, military stores and supplies.

George Cabot in 1798 was honored by President John Adams by being named the first Secretary of the Navy.

History also reveals that baked beans originated in Beverly and later became popular in Boston. Historian Morrison noted "After teaching Boston how to bake beans, that city took credit. After showing Salem how to fish and privateer, the larger port almost absorbed her neighbor."

Beverly was the scene of the Summer White House of President William Howard Taft, and Benjamin Harrison summered here the year after he returned from the Presidency. It has been the home of many distinguished citizens, including Rev. Joseph Willard, D. D. of the First Church in Beverly, President of Harvard College in 1781; Nathan Dane, member of the Continental Congress; birthplace of Poetess Lucy Larcom; both Oliver Wendell Holmes, Senior and Junior; former Senator and U. S. Delegate to the United Nations; Henry Cabot Lodge, former Ambassador William Phillips and many other famous people.

Beverly is a pleasant, residential-industrial community. From fishing, commerce, and agriculture of earlier days, it has developed into a prosperous, well-balanced city. From manufacture of shoes, it grew to include the world's largest shoe machinery plant, owned by the United Shoe Machinery Corporation, Beverly's largest employer. In recent years, various types of machine tools, chemicals, metal products and electronic devices have helped expand the city's economy. Highway Route 128, opening new land for industrial use, is attracting further industry and retail trade here.

Beverly annual Lobster Festival during Home-coming week. Year round you can pick out your own freshly-caught lobster along the waterfront.

Hale House—built for Rev. John Hale, intellectual leader of the Essex County witch hysteria.

Lynch Park Music Shell.

A lane in Beverly Farms. Four great seasons of beauty.

One of the beautiful homes in a friendly, clean community.

New homes in all sections, new churches and schools, enlarged hospital facilities and a convenient downtown shopping center have added to the ideal living conditions found in the community. Over 100 clubs and organizations include improvement associations, Beverly Historical Society, veterans organizations, fraternal groups, United Fund, and social service agencies.

A progressive city government, an active Chamber of Commerce and a healthy business climate have multiplied natural advantages found here to make Beverly the kind of place people are proud to call their "home town".

Beverly's modern Municipal Airport serves the entire North Shore and other communities in Essex County. Located just off Route 128 it has excellent paved runways, the longest being 5000 ft., easy access and fine service facilities.

A cultural and youthful enthusiasm has grown in Beverly in recent years by the location and growth of colleges and schools including Endicott College, Gordon College, Gordon Conwell, North Shore Community College, Landmark School, Shore Country Day School, Brookwood School, North Shore Regional Technical School, Montserrat School of Art and the North Shore Music Theater.

An increase in visitors has supported three fine motels, many excellent restaurants, shops and visitor services.

The Beverly Public Library, established in 1855, is located at 32 Essex Street, with present book collection numbering about 150,000 volumes. The library includes reading and reference rooms, art and geneology rooms, offices and storage rooms. A branch library is located at 24 Vine Street, Beverly Farms, and a bookmobile visits various sections of the community and schools.

we ask you.

Why is it - a man wakes up in the morning after sleeping under an *advertised* blanket on an *advertised* mattress and pulls off *advertised* pajamas. Takes a bath in an *advertised* tub, shaves with an *advertised* razor, washes with an *advertised* soap, puts on *advertised* clothes, sits down to breakfast of *advertised* coffee, puts on an *advertised* hat, rides to his office in an *advertised* car, writes with an *advertised* pencil . . . Then, he refuses to *advertise*, says *advertising* doesn't pay, and then, if a business isn't good enough to *advertise* . . . he *advertises* it for sale.

we ask you.

Why is it - a man wakes up in the morning after sleeping under an *advertised* blanket on an *advertised* mattress and pulls off *advertised* pajamas. Takes a bath in an *advertised* tub, shaves with an *advertised* razor, washes with an *advertised* soap, puts on *advertised* clothes, sits down to breakfast of *advertised* coffee, puts on an *advertised* hat, rides to his office in an *advertised* car, writes with an *advertised* pencil . . . Then, he refuses to *advertise*, says *advertising* doesn't pay, and then, if a business isn't good enough to *advertise* . . . he *advertises* it for sale.

If you believe in your business and want to build it . . .

STREET DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of house-holders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
The abbreviation r between the street number and the name signifies "rear".
The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.
"Right odd" after street description indicates odd numbers on right side of street.
The symbol * following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
S Res Denotes Summer Residence
Zip Codes are included in the description of each street and changes in Zip Code for streets with more than one code are indicated at the address where the change occurs.

The
Motor Hotel
has the
**BIGGEST
BEDBUGS**
in Town!

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

MEMBER ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to 18% Move away or die

17% to 19% "New" people move into town or reach listing age.

26% to 29% More change their addresses or their jobs or some other vital fact that affects their listing.

(All that's left that's good)

Making a total of **59% to 66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.
